Web: [EL3Productions.com](#)

EL3 is a photographer, videographer, marketing strategist, designer, a visionary and above all, a dreamer. As long as a camera is involved, there are no bad days. Using a camera to tell a story is the greatest feeling. Being able to shoot and showcase some of the raddest brands, builds and souls to grace this planet, meanwhile showing off their inner badass, is just an added bonus and a pleasure. EL3 spends quality time amongst (but not limited to)

the moto-community, where you can catch him filling up memory cards as often as the beer fridge and perfecting Spotify playlists. There are thousands of agencies in the world, but there's only one EL3.
