Will has been a professional actor for 25 years. He is also a gun coach, roping coach, and Mechanical Bull coach.

Will's mission: Bring back common sense and communication to our world. The show is called: The Common Sense, cause that is all we can afford Tour. I meet so many people and folks spend so much time keeping it in. They are not talking to each other, just talking to themselves, and you know what happens to folks that talk to themselves,

people think they are crazy. I want to talk to folks; cause people are what is all about. Bring back the history, bring back the conversation, Bring back Will Rogers, or the next best thing. Will Roberts - The Modern Day Will Rogers.
